DIRECTORS' REVIEW

The Directors of Worldcall Telecom Limited ("WTL" or the "Company") are pleased to present the financial information for the half year ended 31 December 2007, reviewed by the statutory auditors.

Financial Overview

During the half year under review the Company posted net revenue of PKR 2,291 million showing an increase of 9.2 % over the corresponding prior period. This growth in sales came despite severe competition that prevailed over the telecommunication industry throughout the period. The Company too, was impacted by this but was able to achieve strong growth in major dimensions by making timely response to changing market dynamics. The Company was able to sustain gross profit margin to sales owing to the managements' continuous endeavor to achieve higher efficiency in operations and processes. Moreover the Company is undertaking a planned and systematic replacement of certain high cost media to lower cost media without making any compromise on the service and delivery standards. This change over has shown some good results in the current period and is likely to significantly ameliorate the operational efficiency in the future. The Company's operating costs increased by 8.4% mainly due to expansion in operations and launch of service in new regions. The increase in revenue coupled with managements' focus on efficient operations led to a 5.9 % increase in the operating profit that stands at Rs. 428 million as compared to Rs. 404 million in the corresponding period last year.

Oman Telecommunications Company (S.A.O.G) ("Omantel") has signed a Share Purchase Agreement ("SPA") with the majority sponsors group of the Company to purchase 451,236,394 ordinary shares from these sponsors. Under the terms of the SPA Omantel will be making a public offer to acquire a further 37,603,033 ordinary shares in compliance with the Listed Companies (Substantial Acquisition of Voting Shares and Takeovers) Ordinance, 2002. Assuming the successful completion of this public offer Omantel would have an aggregate shareholding of 488,839,427 ordinary shares representing approximately 65% of the existing capital of the Company. The subject acquisition (including the public offer) by Omantel is subject to necessary regulatory approvals and satisfaction of conditions precedent stipulated in the SPA.

The rationale for the acquisition of 65% shares of the existing paid up capital of the Company is that the Company is a party to two loan agreements which give conversion rights to lenders. On the assumption that the conversions take place under both agreements, Omantel wishes to ensure that it holds more than 51% of the issued share capital of the Company after the exercise of all existing conversion rights. Upon the completion of the acquisition by Omantel, the majority shareholding of the Company will be controlled by Omantel and Omantel will have majority representation on the Board of Directors of the Company.

Future Outlook

In immediate terms, the Company is executing further enhancement in its existing network for better coverage and capacity expansion. Company has also started to materialize on its strength in broadband and metro connect segments besides robust performance in telecom voice operations.

Given the dynamism of the management team coupled with operational and financial strength of Omantel, the future growth and performance of the Company is assured for the benefit of all shareholders.

Acknowledgement

The Company wishes to place on record its appreciation and gratitude for the dedicated services of its employees. Their hard work and commitment have led the Company to secure a leading place among other players of the industry. The Company also wishes to testify the strong patronage and confidence of its valued customers, share holders and financial partners.

8 Contingencies and commitments

Contingencies

8.1 Billing disputes with PTCL

8.1.1 PTCL has charged the Company excess Domestic Private Lease Circuits (DPLC), International Private Lease Circuit (IPLC), Co Locations and Transmission Capacity charges amounting to Rs. 53.31 million (30 June 2007: Rs. 20.2 million) on account of difference in rates, distances and date of activation. Further the Company has also deposited Rs. 40 million (30 June 2007: Rs. 40 million) in Escrow Account on account of dispute of charging of bandwidth charges from the date of activation of Digital Interface Units (DIU) for commercial operation and in proportion to activation of DIUs related to each DPLC link and excess charging in respect of Karachi-Rawalpindi link which was never activated.

8.1.2 There is a dispute of Rs. 73.73 million (30 June 2007: Rs 75.2 million) with PTCL of non revenue time of prepaid calling cards and excess minutes billed on account of interconnect and settlement charges.

8.2 Disputes with Pakistan Telecommunication Authority (PTA)

8.2.1 There is a dispute of Rs. 11.3 million with PTA on account of contribution to the Research and Development Fund ("R&D Fund") for the period prior to the formation of R&D Fund by the Federal Government. Based on legal advice, the management is confident that the matter will be decided in favour of the Company.

8.2.2 PTA has raised a demand on the Company of Rs. 4.3 million on account of annual microwave and BTS registration charges. The Company is not paying this amount as earlier exemptions were given to mobile operators.

8.2.3 PTA has issued a notice to the Company regarding the 479 MHz and 3.5 MHz frequency bands, as the Company has failed to undertake the rollout of its wireless local loop ("WLL") network in the aforesaid frequencies within the time limit prescribed by PTA. The Company's stance in this respect is that the rollout in 479 MHz, a non standard frequency band, could not be carried out due to non availability of infrastructure and user terminals. Its deployment and commercial operation is not possible in the limited revised time frame. In 3.5 MHz band, the roll out is delayed due to limited customers' market and high cost of the Customer Premises Equipment. Non-firm standards, technology evolution and optimization of spectrum by PTA are also the main reasons for its delayed rollout.

8.2.4 There is a dispute of Rs. 491 million (30 June 2007: Rs. 491 million) with PTA on Universal Service Fund (USF) representing contribution to USF for the period prior to the formation of USF by the Federal Government. Out of this amount, Rs. 223 million relating to prior periods has been deposited with PTA. Show cause notice has been received by the Company in this respect from PTA and hearing is due on 29 February 2008. Based on legal advice, the management is confident that the matter will be decided in favour of the Company.

Worldcall Telecom Limited

8.3 Taxation issues

Additions were made on account of brought forward losses, gratuity and goodwill of Rs. 773 million. The Company has filed an appeal before the Commissioner Income Tax (Appeals) which has been heard for orders.

8.3.2 During the last year the Taxation Officer passed an order under section 161/205 of the Income Tax Ordinance, 2001 for the tax year 2004 and 2005 on account of sales of Payphone services and calling cards creating a tax demand of Rs. 173 million by treating the Company as assessee in default for non-deduction of tax under section 236 of the Income Tax Ordinance, 2001. 12 Post balance sheet date event

Oman Telecommunications Company (S.A.O.G) ("Omantel") has signed a Share Purchase Agreement ("SPA") with the majority sponsors group of the Company to purchase 451,236,394 ordinary shares from these sponsors. Under the terms of the SPA Omantel will be making a public offer to acquire a further 37,603,033 ordinary shares in compliance with the Listed Companies (Substantial Acquisition of Voting Shares and Takeovers) Ordinance, 2002. Assuming the successful completion of this public offer Omantel would have an aggregate shareholding of 488,839,427 ordinary shares representing approximately 65% of the existing capital of the Company. The subject acquisition (including the public offer) by Omantel is subject to necessary regulatory approvals and satisfaction of conditions precedent stipulated in the SPA.

The rationale for the acquisition of 65% shares of the existing paid up capital of the Company is that the Company is a party to two loan agreements which give conversion rights to lenders. On the assumption that the conversions take place under both agreements, Omantel wishes to ensure that it holds more than 51% of the issued share capital of the Company after the exercise of all existing conversion rights. Upon the completion of the acquisition by Omantel, the majority shareholding of the Company will be controlled by Omantel and Omantel will have majority representation on the Board of Directors of the Company.

9 Contingencies and commitments

Contingencies

9.1 Billing disputes with PTCL

9.1.1 PTCL has charged the Company excess Domestic Private Lease Circuits (DPLC), International Private Lease Circuit (IPLC), Co Locations and Transmission Capacity charges amounting to Rs. 53.31 million (30 June 2007: Rs. 20.2 million) on account of difference in rates, distances and date of activation. Further the Company has also deposited Rs. 40 million (30 June 2007: Rs. 40 million) in Escrow Account on account of dispute of charging of bandwidth charges from the date of activation of Digital Interface Units (DIU) for commercial operation and in proportion to activation of DIUs related to each DPLC link and excess charging in respect of Karachi-Rawalpindi link which was never activated.

9.1.2 There is a dispute of Rs. 73.73 million (30 June 2007: Rs 75.2 million) with PTCL of non revenue time of prepaid calling cards and excess minutes billed on account of interconnect and settlement charges.

9.2 Disputes with Pakistan Telecommunication Authority (PTA)

9.2.1 There is a dispute of Rs. 11.3 million with PTA on account of contribution to the Research and Development Fund ("R&D Fund") for the period prior to the formation of R&D Fund by the Federal Government. Based on legal advice, the management is confident that the matter will be decided in favour of the Company.

9.2.2 PTA has raised a demand on the Company of Rs. 4.3 million on account of annual microwave and BTS registration charges. The Company is not paying this amount as earlier exemptions were given to mobile operators.

9.2.3 PTA has issued a notice to the Company regarding the 479 MHz and 3.5 MHz frequency bands, as the Company has failed to undertake the roll out of its wireless local loop ("WLL") network in the aforesaid frequencies within the time limit prescribed by PTA. The Company's stance in this respect is that the roll out in 479 MHz, a non standard frequency band, could not be carried out due to non availability of infrastructure and user terminals. Its deployment and commercial operation is not possible in the limited revised time frame. In 3.5 MHz band, the roll out is delayed due to limited customers' market and high cost of the Customer Premises Equipment. Non-firm standards, technology evolution and optimization of spectrum by PTA are also the main reasons for its delayed roll out.

9.2.4 There is a dispute of Rs. 491 million (30 June 2007: Rs. 491 million) with PTA on Universal Service Fund (USF) representing contribution to USF for the period prior to the formation of USF by the Federal Government. Out of this amount, Rs. 223 million relating to prior periods has been deposited with PTA. Show cause notice has been received by the Company in this respect from PTA and hearing is due on 29 February 2008. Based on legal advice, the management is confident that the matter will be decided in favour of the Company.

13 Post balance sheet date event

Oman Telecommunications Company (S.A.O.G) ("Omantel") has signed a Share Purchase Agreement ("SPA") with the majority sponsors group of the Company to purchase 451,236,394 ordinary shares from these sponsors. Under the terms of the SPA Omantel will be making a public offer to acquire a further 37,603,033 ordinary shares in compliance with the Listed Companies (Substantial Acquisition of Voting Shares and Takeovers) Ordinance, 2002. Assuming the successful completion of this public offer Omantel would have an aggregate shareholding of 488,839,427 ordinary shares representing approximately 65% of the existing capital of the Company. The subject acquisition (including the public offer) by Omantel is subject to necessary regulatory approvals and satisfaction of conditions precedent stipulated in the SPA.

The rationale for the acquisition of 65% shares of the existing paid up capital of the Company is that the Company is a party to two loan agreements which give conversion rights to lenders. On the assumption that the conversions take place under both agreements, Omantel wishes to ensure that it holds more than 51% of the issued share capital of the Company after the exercise of all existing conversion rights. Upon the completion of the acquisition by Omantel, the majority shareholding of the Company will be controlled by Omantel and Omantel will have majority representation on the Board of Directors of the Company.
